PRINCIPAL'S MESSAGE

It gives me a great deal of pleasure to be able to express a few feelings and to share a few thoughts related to McKay Avenue School. A yearbook always provides a good opportunity to do this. We hope that it will also provide all of us with fond memories of the many experiences we shared together.

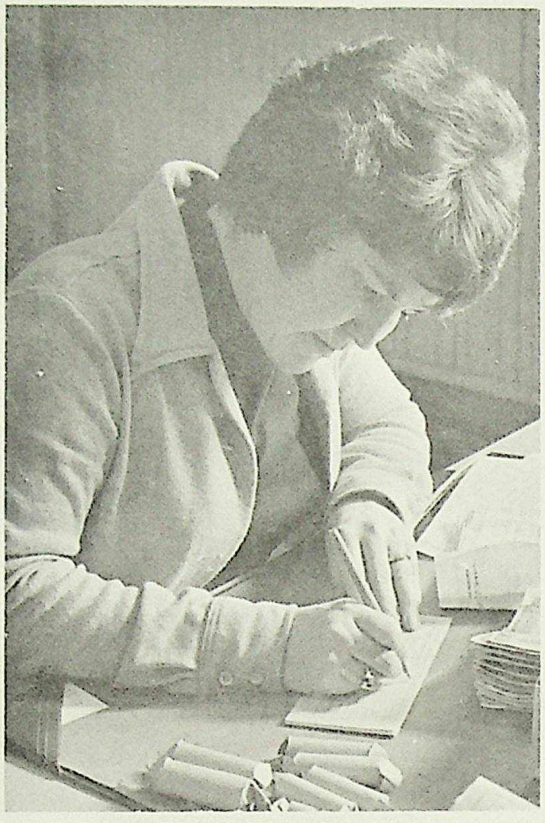
This has been my first year at McKay Avenue School but even in that short time I have been convinced that we have the right program for those students who wish to take the vocational route in the high school. To develop such a program must have required much time and effort on the part of the administrators and staff members of past years. Our main objectives are to up-grade the basic skills which are necessary in the world of work, and to provide learning experiences in as many vocational areas as our limited facilities will permit. I firmly believe that we should have a larger school so that our students could be exposed to more vocational areas. However, even in our small school I am sure that our students have benefitted greatly during the past year. I wish them even greater success in the years ahead.

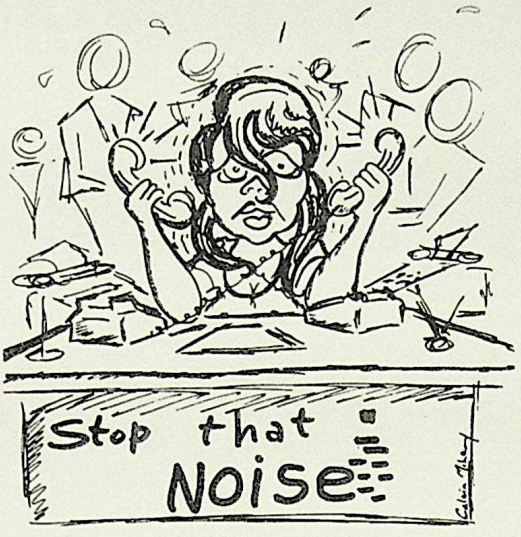
I want to thank all the teaching staff, the custodial staff, and our secretary for their co-operation and hard work. That is what made my work much easier. I also want to thank all those students who tried so hard to prepare themselves for next year's programs at W.P. Wagner, T.D. Baker, and Jasper Place Composite High Schools. We know that you will succeed if you keep up that kind of effort. The staff and I are proud to have been able to help you in some small way.

In closing I want to express special thanks to the Yearbook Committee for planning and putting the Yearbook together so quickly. Oh yes, and very special thanks to Mr. Schiller for all those excellent photos.

Best wishes to all of you.

Martin Shalka





Ode To Our Secretary

I am not allowed to run the school
The bells I cannot ring.
I am not allowed to say 'You fool,'
How come a note you didn't bring?

I am not allowed to shoot off steam,
Nor even pound the desk.
How often I would love to scream,
When in walks yet another guest.

"I Like Spring"

I like spring because the world is new. The ice and snow melt and there is a nice, fresh smell in the air. You don't have to wear heavy clothes in spring. The birds start coming back. The leaves start getting green and flowers start growing. By the end of spring the flowers bloom.

In spring, you know school will soon be over. Riding horses is fun in the spring because you take the horses in the creek and see the ice melt. I wish I could have spring all year round.

"WORLD FAMOUS SEAGRAM'S V.O."

Once upon a time there lived a group of Seagrams. Seagrams were very well educated and had almost everything you could think of, but they were not happy. Then one day one of the wise men of the village was having a party, which he had been planning for two years. The first thing that he bought was fruit. Seagrams loved fruit, and in these two years he let the fruit sit in the basement of his house.

When finally he was ready for the party he went down to the basement and found that the fruit was a strong smelling liquid. It was too late to get more fruit so he served the strange smelling fruit to some of the guests that came over that day. It tasted horrible so he put it through a still to get out all the bacteria. It tasted strange but good. That night at the party everybody drank and drank and drank. They staggered around and laughed and were finally happy for the first time in their life and from that day on they called it Seagram's Whiskey.

Now after 300 years Seagram's Whiskey is bringing enjoyment to people all around the world.

"The Mountains"

I think mountains are beautiful. They seem to come alive and talk to you. They seem to reach out and touch you.

One day a boy was walking through the mountains because he just had a fight. He always went there to think things over. Finally he realized that the Mountains were trying to tell him something, and they did. They said that he should love all things and all people. The boy went home a happier person.

HOW TO PUT ON NYLONS

BY Ron Twa

The first thing my Mom told me to do is cut your toe nails, because if you don't, you will get a snag, and your nylon will run. But if you want to look very snazzy, you can put nail polish on your toe nails and wear shoes with a hole in the toe so you can show them off. You can get all different kinds of nylons: blue ones, black, brown, white, and probably purple.

"All right class settle down. I have a special announcement to make. Will you please pay attention. What do you think I'm running here? Jim, did you hear me?" "Yes, Mr. Weatherbee I'm all ears." "Huh, a minute ago you didn't have anything. Okay, now I want to tell you all that tomorrow has been declared a holiday." (Yeh! Yeh!) "For the last time settle down or so help me I'll kill you all." "Oh you scare us Mr. Weatherbee." All of a sudden he took out his gun and shot them all dead. "I shouldn't have done that but I deserve a little pleasure in life too you know. Well so much for their holiday this week. I guess they are stuck with me and I'm stuck with them."

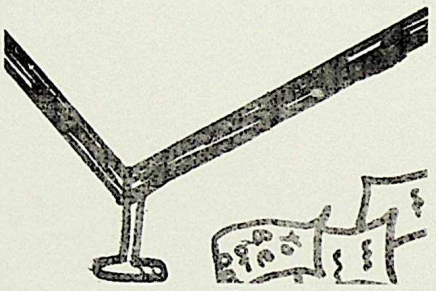
REFLECTIONS IN ROOM 10

Indian Children

Where we walk to school each day
Indian children used to play-
All about our native land,
Where the shops and houses stand.

And the trees were very tall,
And there were no streets at all,
Not a church and not a steeple-
Only woods and Indian people.

Only wigwams on the ground,
And at night bears prowling round-
What a different place today
Where we live and work and play!



The Little Turtle

There was a little turtle.
He lived in a box.
He swam in a puddle.
He climbed on the rocks.

He snapped at a mosquito.
He snapped at a flea
He snapped at a minnow.
And he snapped at me.

He cuaght the mosquito.
He caught the flea.
He cught the minnow.
But he didn't catch me.

Thoughts on...

"Freedom"

Freedom is not having someone tell you what to do.

Freedom is doing what you want to do.

Freedom is like being on an island all by yourself.

Freedom is like being on your own and not a care in the world.

Freedom is like going to heaven without having to die first.

Freedom is like being a bird in the sky, a monkey in the tree, a mouse in a field, and a bear in the mountains.

That's why I wish I was just as free.

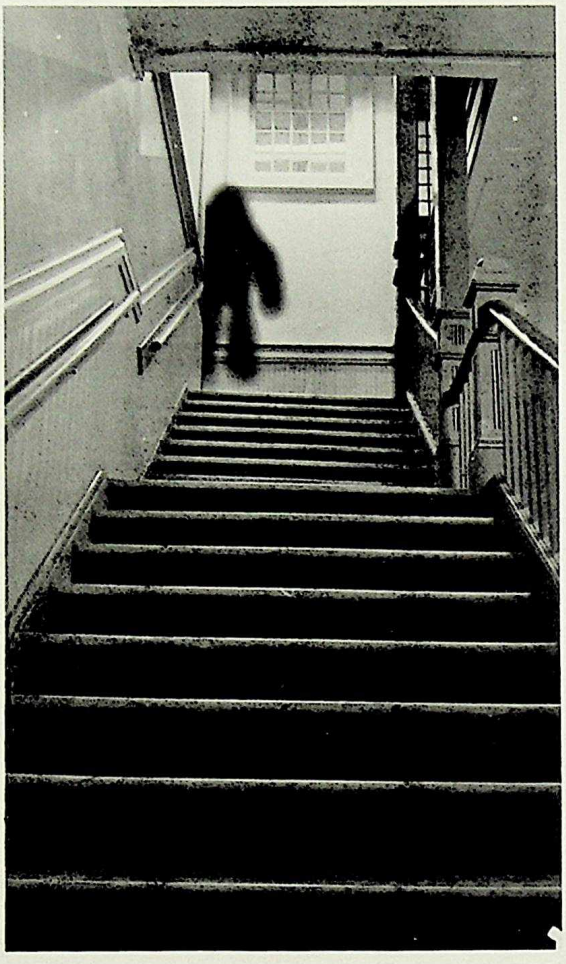
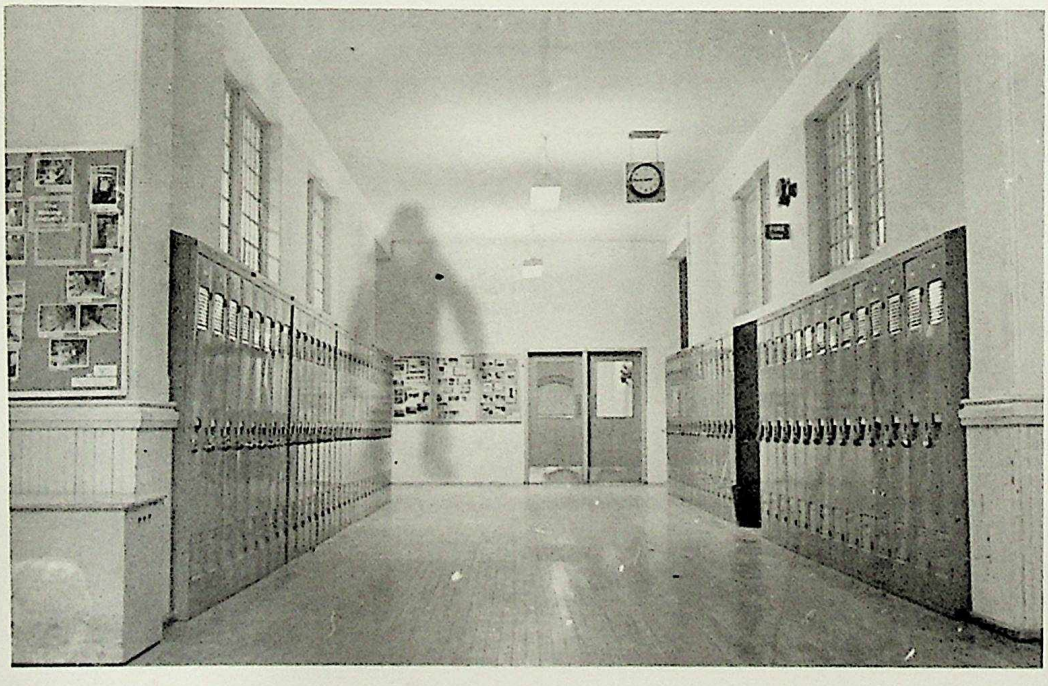
If I've told you once,
I've told you a thousand
times - Don't mess with me!



The Spirit of McKay.

Pictures never lie.



THE GHOST OF MCKAY

Way back when men were building here
A workman slipped and died
He fell in the cement downstairs
He's buried in McKay

He's covered over by cement
Except for two big toes
These toes got cold in '76
And so McKay's ghost rose

He wandered down the hallways
And through the rooms and rubble
And then he thought; "I'll play some jokes
I'd like to see some trouble."

So when he saw young Brian Elless
Outside - breaking a rule
He wrote a note and told this news
Brian is skipping school

The ghost laughed loud when Brian said
"I only stayed away
Because I MIGHT get sick on chips
And gravy, at the Bay."

One day Bill Loutaif stayed in bed
'Til ten - (he thought it cool)
'Til ghostie went and haunted him
Then Bill ran fast to school

McKay's ghost chuckled real loud
As he heard Bill's excuse
"I choked on this red vitamin
While drinking orange juice."

In cooking class the ghost had fun
He spilled the pot of tea
And Brendon said his usual phase
"Oh no - it wasn't me!"

He turned Mark Fairall's oven up
While he was baking cakes
Said Mark, "Oh great, I really love
Delicious charcoal flakes."

He joined the christmas dinner
And enjoyed the food galore
Rod Little never figured why
His food was on the floor

While boxing, Greg got his arms held
By ghost. "Yes it is true,
McClean says, "That is why I lost
The box match to deLeeuw

The ghost put slugs in the machine
And drank the milk and malts
..So all the trouble that occurred
Was NOT the student's fault
But resulted cuz the ghost was stirred.
